

Your iPhone has two cameras. Use both at the same time.

SplitRig is the pro-grade dual camera app: what you see and your reaction, in one video.

Altitude
928 m

Goal
12.4 / 20 km

Speed
47 km/h

UP TO
4K

● Split Screen ● Picture in Picture ● Single Camera ● Face Mode

Dual camera. One video.

Front and back cameras record at the same time, into one file. Up to 4K on the back camera.

Four layouts. One tap.

Split Screen, Picture in Picture, Single Camera or Face Mode. The small picture can be a rectangle or a circle.

Live widgets. In the video.

Speed, altitude, distance, goal and sound level, recorded into your video as it happens.

Face Mode. No background.

Your background disappears. Only you, placed over the view of the back camera.
